DOWNTOWN DALLAS DATA CENTER

400 South Akard - Dallas, TX

Located in the former Federal Reserve Building in heart of the Dallas central business district, DataBankís downtown Dallas facility provides 12MW of on-site power in a True 2N power design. DFW1 is fed by diverse high-priority substations with multiple A/B diesel power generators, backing up all utility power feeds and features a dual loop cooling system backed by on-site water storage. The facility provides 130,000 square feet of raised flooring, houses DataBankís FedRAMP-certified cloud platform, and features multi-level physical security, including 7x24x365 on-site staff and monitoring. DFW1 is one of Dallasí primary carrier hotels and is connected via a metro data center interconnect network to DataBankís DFW2 and DFW3 data centers, and other metro carrier hotels, for easy access to over 28+ carriers in the area.
