product ↘
overview

Next-Gen Hybrid Cloud Infrastructure

Experience the future of hybrid cloud with Livewire Cloud's fully managed Azure Stack HCI. Hosted in our state-of-the-art datacenter, this solution combines the power of Microsoft Azure with expert management and support from Livewire. Enjoy high-performance, low-latency virtualized applications, seamless Azure integration, and comprehensive management, including monitoring, maintenance, and support. Focus on innovation and growth while we handle your infrastructure.

Microsoft Azure

High Availability

Advanced
Multi-layer Security

Enjoy seamless hybrid cloud integration with **Hybrid Capabilities**. **Enhanced Scalability** adjusts resources to meet your needs without compromising performance. **Advanced Multi-layer Security** protects your data across all levels. **High Availability** ensures minimal downtime for critical applications. **The Integrated Systems Approach** simplifies datacenter operations with ready-to-deploy infrastructure. **Proven Technologies** deliver superior performance and stability.

benefits ⬊

Discover the key benefits of Microsoft Azure designed to enhance your cloud experience.

- Cost Efficiency
- Industry Leading Performance
- Agility and Flexibility
- Consistent Operation
- Future-proof Infrastructure
- Flexible Payment Model

- Familiar for IT Admins
- Comprehensive Management
- Third-Party Integration
- Flexible Hardware Choices
- Joint Support
- Simplified Updates

30%
reduction in total ownership costs

40%
faster computing speeds

50%
quicker integration with existing systems

60%
faster adaptation to technological advancements

azure hybrid benefit ↘

Save up to

70%

on costs. Use your existing on-premises Windows Server and SQL Server licenses with Software Assurance to save on Azure Stack HCI and Azure virtual machines.

🖥 Flexible Licensing

Choose when and how to use your existing licenses to best suit your cloud migration or expansion strategy.

🗄 Seamless Transition

Move your workloads to Azure Stack HCI with minimal disruption, maintaining compliance and maximizing the value of your existing investments.

partner
use cases ↘

MSPs

Managed Service Providers can use Azure Stack HCI for a fully managed hybrid cloud solution, offering centralized management, automated updates, and integrated backup, enhancing security and cost-effectiveness.

Resellers

Resellers can benefit from Azure Stack HCI by bundling it with consulting, deployment, and support services, offering a complete hybrid cloud solution and generating more revenue.

ITSPs

IT service providers can expand offerings with Azure Stack HCI, integrating Azure services for robust solutions that meet evolving business needs, ensuring competitiveness in the market.
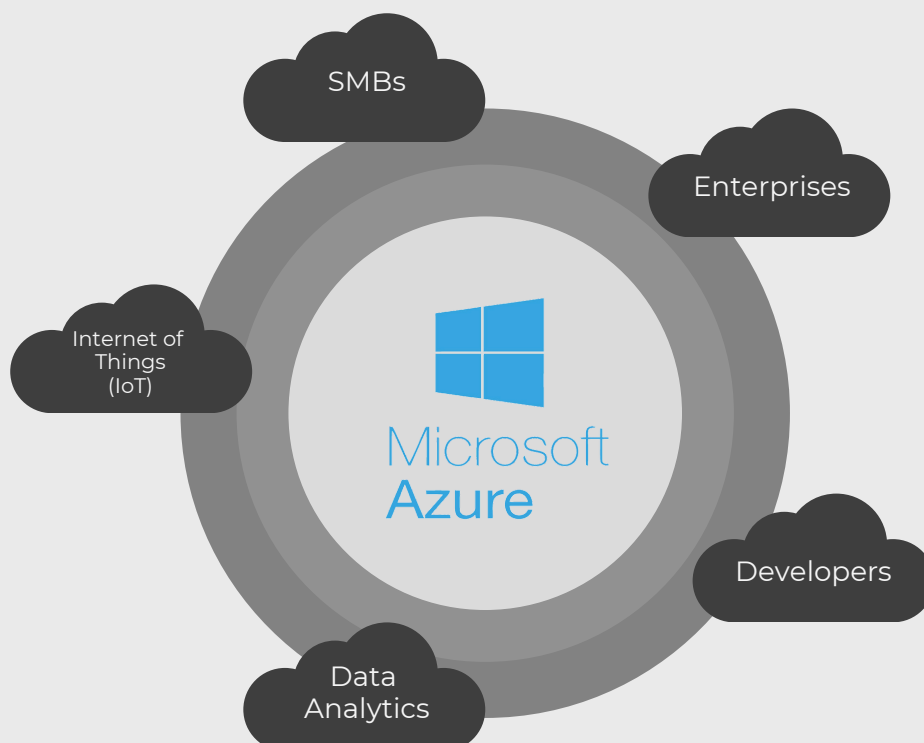

ISVs

Azure Stack HCI enables ISVs to develop and deploy modern applications on-premises or in the cloud, offering flexibility and scalability while optimizing development processes.

customer use cases ↘

Azure Stack HCI excels in several key areas

- **Virtual Desktop Infrastructure (VDI)**: Provide secure, high-performance virtual desktops.

- **Remote Branch Office**: Deploy resilient, scalable infrastructure in remote locations.

- **High-Performance Applications**: Run intensive workloads with superior performance and reliability.

- **Disaster Recovery**: Utilize integrated Azure services for robust backup and site recovery solutions.

technical specifications ↘

1	CISCO/DELL SERVER HARDWARE
2	CISCO NEXUS FABRIC
3	CERTIFIED TIER-3 DATACENTERS
4	CLOUD EXCHANGE AND NETWORK TRANSIT
5	MULTI-TIERED STORAGE
6	ZERO TRUST NETWORK ACCESS
7	MULTI-FACTOR AUTHENTICATION (MFA)
8	EXTERNAL VULNERABILITY SCAN
9	AUTONOMOUS DEEP LEARNING AI PENETRATION TESTING
10	DDOS PROTECTED BANDWIDTH
11	OPTIONAL MANAGED SOC
